A message from KEPCO Bylong Australia's Chief Operating Officer

The NSW Land Environment Court's decision has been handed down following a judicial review of the Independent Planning Commission's (IPC) refusal of the Bylong Coal Project. KEPCO is very disappointed that the Court did not find in favour of the project and the strong case it made for overturning the refusal by the IPC.

KEPCO will now take some time to review the decision of the Court and decide the future direction of the project.

On behalf of KEPCO, I would like to thank all our stakeholders including the local community who have expressed support for the project during this difficult year. We will keep you updated of any further developments.

Yours sincerely,

Bill Vatovec - Chief Operating Officer
